8th January 2020

Dear Parents/Carers,

Re. Noel Turner Science Festival

All children in Year 5 have been invited to take part in the Noël Turner Science Festival held at the Enterprise College in Cowes on the 7th February.

The festival is a celebration of Science, Technology, Engineering and Maths (STEM), aiming to spark curiosity and raise understanding and awareness of the practical applications of STEM for primary and secondary students.

Children will have the opportunity to explore the exhibition halls where they can interact with, and take part in hands-on activities run by, local scientists and people from the STEM industry. Whether it was launching rockets or exploring 3D vision, the previous years' events have provided some fantastic opportunities for students to see STEM in action.

There will be a large range of exhibitors from all walks of Science and Industry with activities suitable for primary and secondary school students, giving everyone the chance to explore. We are involving local businesses and education providers to help young people find out about potential employment in the STEM industries.

The recent collaboration with Winchester Science Centre brings a new exciting dimension to the festival with a pop-up version of its popular Science Centre experience, complete with live science shows, demonstrations and activities.

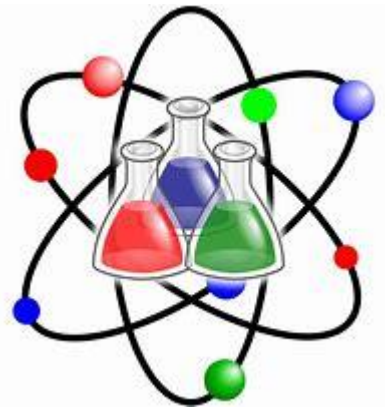

Children will leave the school by coach at 10.00am and will return to school by 2.30pm.

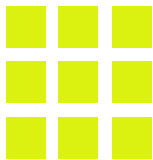

Children should come to school at the usual time wearing full smart school uniform and a warm coat.

All children will need a packed lunch including a drink (No nuts or fizzy drinks please).

Please see me if you have any further enquiries.

Best wishes,
Miss Bekesi
Year 4/5 Teacher
