STEM CHALLENGE

4th November 2019

Dear Parents and Carers,

Kendal and Dartmouth classes are being offered the opportunity to take part in the Farmvention STEM challenge. Farmvention (when farming meets invention) is a national STEM competition run by NFU Education and aimed at primary school children.

In small teams, the children will need to research and use their creativity to solve a problem based challenge designed to make them think about the day to day issues faced by farmers and growers in England and Wales,

It will be run as a FREE after school club on Fridays throughout November and December 3.10-4.10pm. Please note there will be NO CLUB on Friday 6th December as this is the date of the school Christmas Fayre.

If your child would like to take part please return the slip below, to the office, by Thursday 7th November. Places will be given on a first come first served basis and are limited to 10 pupils.

With thanks,

Mrs Sim
